NOTIFICATION OF TRANSMITTAL OF INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (Chapter II of the Patent Cooperation Treaty)

(PCT Rule 71.1)

Date of mailing (day/month/year)	07 AUG 2006
IMPORTANT NOTIFICATION	
International application No.	International filing date (day/month/year)
PCT/IB04/52005	06 October 2004 (06.10.2004)
Priority date (day/month/year)	
04 March 2004 (04.03.2004)	
Applicant	
FINKELSTEIN, BARRY	

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary report on patentability and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

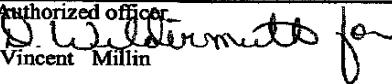

4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices)(Article 39(1))(see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the *PCT Applicant's Guide*.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed invention is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

Form PCT/IPEA/409 (Box No. I) (April 2005)

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/IB04/52005

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 1-81	YES
	Claims <u>NONE</u>	NO
Inventive Step (IS)	Claims 1-81	YES
	Claims <u>NONE</u>	NO
Industrial Applicability (IA)	Claims 1-81	YES
	Claims <u>NONE</u>	NO

2. Citations and Explanations (Rule 70.7)

Claims 1-81 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a method practiced with respect to a sponsor having credit and with respect to directors and officers of the sponsor, the method comprising the steps of: arranging for a first investment account to sell securities linked to the creditor of the sponsor, the proceeds of the sale defining first value, the sale occurring on a first date obligating the first investment account to transfer a first portion of the first value to the second investment account in the event of a credit event with respect to the sponsor occurring within a first interval of the first date, thereby defining a second portion of the first value in the first investment account and in the event of the credit event, obligating the second trust to provide indemnification and defense services for the directors and officers, the indemnification and defense services paid for by the first portion of the first value as discussed in claim 1. Independent claims 15, 28, 46 and 64 are substantially similar to claim 1 and have similar reasons for meeting the criteria set out in PCT Article 33(2)-(3).

Claims 1-81 meet the criteria set out in PCT Article 33(4), and thus meet the industrial applicability because the subject matter claimed can be made or used in industry.
